STITUTE opens at Castle Garden on Monday, and already, we believe, has the time for receiving articles for exhibition and competition arrived. We trust the Farmers, Artisans, Mechanics and Manufacturers of our Country, but especially of this City and vicinity, will feel a general and laudable pride in making this Fair at least equal to the best of its predecessors in all respects and superior in many Such exhibitions are of immense benefit to the Industry and Genius of a People. Whoever has invented a means of performing a mechanica operation more cheaply or perfectly than it had previously been done will find the Fair a vast advertisement of his achievement-one widely read by the very class likely to appreciate and reward triumph. He who in any department of Productive Industry of the Useful Arts has done well, let him bring the trophies of his triumph to the Fair, and rest assured that he will receive honors more substantial and truly gratifying than those of a desolater of cities and provinces. We hope to see the Conven- for die tion of Farmers, Gardeners and Silk Culturists emphatically well attended, especially by Silk Growwith Cloths, especially the finer fabrics? Do our manufacturers give itup that the most tasteful and costly (of course, best paid for) goods must continue come from the other side of the ocean? We

The report on the Episcopal Fund was then read, showing that the disposable fund was \$67,500. Several other reports of minor importance were then read and adopted.

The Special Committee on the Theological Seminary, who had had under consideration certain alterations in the Constitution proposed at a recent meeting of the Trusbees, reported that it was the unanimous view of the Committee that expediency dictated that the Convention should express no opinion on the subject.

A rather exciting question was then taken up on motion of John A King. This was the question of the admission of St Phillip's, a church of colored people with a white dergymen, to representation in the Coovention. On this subject Mr. King was willing that the vote should be taken without debate, but Mr. Harrison of Trinity was not disposed to allow it to pass in that manner. He himself had a word to say, and be wished that the matter might be postponed.

It may be recollected by those were familiar with the proceedings of the Convention of 1845, that this subject was under consideration them, and that two reports were presented by the Committee baving the matter in charge, and laid on the table until the present year. Of these reports, that of the majority had been printed and distributed through the Convention. With this fact John Jay, Esq on behalf of the minority, found fault, complaining of unfairness, and though the reading of the reports had been commenced preparatory to action, the subject was laid on the table in order that the minority report might be printed also.

A prolonged discussion then ensued on the question whether the nomination of the trustees of the Theological Seminary from this diocese should be as hitherto rice roor or by ballot. In this debate Judge Betts, Rer. Mr. Jones and Mr. Harrison participated. It was faulty decided by a large majority to continue the rice roor procedure. The Convention then tooks a recess till 7 in the evening. "HONOR TO WHOM BONOR IS DUE."-Some time since a silver sacramental service was presented to the Dry Dock Mission M. E. Monday will be chiefly devoted ries in Upper California; and that the Mexican Government could, after that time, if it choose, renew this article of the Treaty. This was not ne-Then Mr. Trist, unclothing himself of his official power,, remarked to the Mexican Commissioners,

hat he thought it would be better for Mexico to cede the whole of Upper California to the U. S. for which Governmen would pay \$15 or \$20,000,000 .--This would probably have been agreed upon, if the following article had met with the assent of the Mexicans, that the Texan Boundary Line would run along from the mouth of the Rio Grance. This last proposition was rejected; the Mexicans would not yield one inch of ground the other side of the Mr. Trist then asked for forty-eight days time to

onsider, as he said he was not authorized to ac ept such a proposition, but the Mexicans replied that they would give but five days and no more. On the fifth day of the conference, the 7th inst a cetter was written by Santa Anna to Gen. Scott, nforming him of the breaking the armistice on some trifling pretext. Gen. Scott replied, making similar charges against Santa Anna.

On the 8th inst. a few hundred men of the Amercan army were sent to attack Chapultepec; they there encountered a large force of the enemy's best troops, and a terrible fight ensued, in which the Mexicans were defeated. General Leon, who comed as to wast pursuit they are by nature best qual- manded the Mexicans, was wounded, and General Baldesis, of the National Guard, was killed.

The Americans retired to Tacubays, leaving five wagons behind them.

The loss of the Americans is said to be comparatively small. A proclamation was issued by Gen. Herrera
